**Product Highlights****Black Line S**

Philips TV picture tube with invar mask gives less deformation and therefore can provide 80% more contrast than conventional picture tubes for brilliant colours and minimal reflections, even when viewing in daylight

**Contrast Plus**

A special electronic circuit has been incorporated into this television to enhance the darker portions of the picture for added realism and improved picture quality

**Scavem**

Scan VElocity Modulation - the speed at which the picture lines are "written" on the screen is varied to ensure that all objects have the most crisp definition and sharpest edges.

**Incredible Surround**

Incredible Surround widens the stereo sound signal offering a surround sound experience.

**RMS**

The standard professional measure of sound output power. All our TV's are measured in RMS with 10% Distortion. There are other terms than RMS which often show higher numbers but are not comparable.

**FM Radio**

A radio is included inside the TV, capable of stereo sound (in stereo TV's) and storage of up to 40 FM Radio stations. On screen naming of all these stations is also possible for easy navigation.

**Plug & Play**

Having connected the tv, it automatically searches for all channels and installs them.

**10 Page Smart Text**

Fast access to your own programmed favourite text pages.

**Side Connections**

Connections for headphone and other inputs such as camcorder, side entry for ease of use.
